RE: Bedford Drive Paving

The Mattioli Company is currently in the process of completing the road replacement on Bedford Drive. As a resident and an individual who has extensive poured concrete experience, having supervised numerous major construction projects, I am very impressed with the work Mattioli has put in place.

The quality of their work is exceptionally good and a tremendous improvement to the neighborhood.

Most impressive were their means and methods, sequencing of the work, accommodation of resident traffic and the courtesy of their workforce. The care with which they conducted the work was appreciated by every resident I spoke with regarding their performance.

They did a great job of executing a major project without any major inconvenience.

Sincerely,

Dan Feliks

Bedford Drive  
Northville, MI 48167
